(University of Palermo). The main research interests are oriented towards ten areas interconnected by one central theme which is initial and in-service teacher education: University Teaching, Teaching Innovations at School and Inclusion, Soft skills, Metacognitive awareness, Flipped learning model, Orientation, School dispersion, Leadership, Formative assessment, self-evaluation and personalization at school. He is currently: Scientific Referent for the University of Palermo of the National Doctoral Program "Learning Sciences and digital technologies"; Internship Coordinator for the Specialization Course of Support Activities and for the Degree Course in Primary Education at the University of Palermo; Director of the A046, A048 and A049 Secondary School Teacher Training Pathways at the University of Palermo.

Dorotea Rita Di Carlo, has been a PhD candidate since 2022, at the Department of Psychological, Pedagogical, Exercise and Education Sciences (University of Palermo). Her main research interests are in university didactics, initial and in-service training of teachers and pedagogues, the development of soft skills in teachers and pedagogues, the role of feedback in evaluation processes, and Narrative Inquiry as a methodology for teacher education.

Martina Bruno, has been a PhD candidate since 2024, at Learning Sciences and Digital Technologies, the Department of of Surgical, Medical, Dental and Morphological Sciences with Interest in Transplantation, Oncology and Regenerative Medicine (University of Modena and Reggio Emilia). Her main research interests are in university didactics, initial and in-service training of teachers and pedagogues, the role of artificial intelligence in evaluation processes.

Daniela Bianchi, is a Research Fellow at the Department of Human Sciences, University of Verona. She is currently involved in the European project METEOR (Methodologies for Teamworking in Eco-Outwards Research), which aims to rethink doctoral education and enhance researchers' transversal skills through interdisciplinary approaches with a focus on social impact. She holds a PhD in "Education in Contemporary Society" from the University of Milano-Bicocca, with a dissertation centred on youth political participation in Europe. She has participated in national and international research projects on children's and young people's participation, child protection, and the promotion of children's rights, in collaboration with academic institutions, European bodies, and international organisations.

learning, teacher training and professional development, learning analytics, and personalized learning models.

Alberto Fornasari, Associate Professor of Experimental Pedagogy at the Department of Education, Psychology, Communication at the University of Bari Aldo Moro. Head of Interuniversity Center of Research and Training on "Population, Enviroment, Health". Member of the PhD board in Human Sciences (UNIBA) and PHD board in Leadership, empowerment, and digital innovation in education and learning (LEDIEL), member of the board of the Italian Society of Research on Media Education (SIREM). Coordinator of several European and international projects, author of more than 100 scientific publications, speaker and keynote speaker at national and international conferences. His research lines range from intercultural education to media education, innovative teaching, teaching technologies, e-learning, inclusive didactic (all this research lines have been conducted with an experimental approach).

Gaetano Monaco is a Ph.D. student in the Leadership, Empowerment, and Digital Innovation in Education and Learning (LEDIEL) doctoral program at the University of Bari Aldo Moro. He is a pedagogue and primary school teacher, with solid experience in the fields of education and training. His research activity is situated within the domain of experimental pedagogy, with a particular focus on the analysis and development of innovative educational practices aimed at improving the quality of the school experience and teaching-learning processes. His scientific interests cover a range of areas, including school well-being, the use of educational technologies in learning processes, and school and formative assessment. Across all these areas, he adopts an empirical and experimental approach, seeking to integrate research with educational practice through observation, experimentation and critical data analysis.

Fabiana Coluzzi, is a researcher at Roma Tre University in Italy, where she has been a Cultore della Disciplina in Pedagogy of Work since 2019. She obtained her PhD in 2018 at the University of Burgos, specializing in educational methodologies and teacher training practices.
Her research interests focus on enhancing educational practices and exploring the integration of digital and soft skills within teaching frameworks. Fabiana actively contributes to the academic community through her publications, including her recent work titled Humanising AI-Driven Education: Balancing Digital Skills and Soft Skills in European Universities, published in the *Italian Journal of Educational Technology*

digital literacies, professional identity, sociomateriality in education and Artificial Intelligence in Digital Learning Ecosystems.

Alessandra Rigamonti, Ph.D. is a researcher and lecturer in Educational Sciences in the Department of Education and Learning/University of Teacher Education at University of Applied Sciences and Arts of Southern Switzerland (SUPSI), CH. She had a Ph.D. in Education and Communication in the Department of Human Sciences for Education at University of Milano-Bicocca. Her research interests are professionals' reflexivity, child protection, and family-school interaction.

Valentina Giovannini, is a researcher and lecturer in Educational Sciences in the Department of Education and Learning/University of Teacher Education at University of Applied Sciences and Arts of Southern Switzerland (SUPSI), CH. Her research interests are teacher training, teaching, and collaboration.

Elena Nardiello, is a Ph.D. student within the doctoral program "Leadership, Empowerment and Digital Innovation in Education and Learning" (LEDIEL), 39th Cycle, established at the University of Bari Aldo Moro. Her doctoral position is supported by a scholarship funded by the University of Parma. Her research explores themes of sustainability, innovation, and experiential learning in the context of Higher Education.

Elisa Zobbi, is a tenure-track researcher and lecturer in Residential-care Pedagogy for Minors at the University of Parma. Her research interests focus on educational theory and moral education, particularly within school contexts and educational service settings.

Mariangela Scarpini, is Junior assistant professor at the University of Parma - Department of Humanities, Social Sciences and Cultural Industries. Ph.D. in Educational Sciences, University of Bologna: Pedagogy, Theories of Education and Social Education. Her research interests include childhood and families, philosophy for children and critical thinking. She carries out her research in the field of Cultural heritage and Pedagogical management of educational contexts

Andrea Pintus, is Associate Professor of Educational Research at the Department of Humanities, Social Sciences and Cultural Industries of the University of Parma, where he teaches Design and Evaluation in Social-Educational Services and Empirical Research Methodologies in Education.

Maja Antonietti, is Associate Professor of Educational Research at the Department of Humanities, Social Sciences and Cultural Industries of the University of Parma, where she teaches Didactics and Early Childhood Special Education.

Maria Filomia, is Associate Professor of General and Social Pedagogy at Link Campus University. Her research interests focus on early childhood education, children's literature, the history of schooling and educational institutions, and the integrated 0-6 education system. E-mail: m.filomia@unilink.it.

Alessia Rosa, is Senior Researcher at INDIRE (National Institute for Documentation, Innovation and Educational Research). She hold a PhD in Education Sciences. She focuses her research on childhood education, creativity and Personalized learning In Indire she is directly involved in several projects related to teacher training (induction and Continuous Professional Development) and school technology innovation.

Debora Tringali, is a PhD student in Digital Transformation, Digital Humanities curriculum at the Telematic University. Her research interests focus on the pedagogy of care and the use of integrated artistic languages in education. She is an expert in the application of the phenomenological-hermeneutic method in qualitative research.

Andrey Sgorla, PhD in Social Sciences (Brazil) and PhD in Learning and Innovation in Social and Work Contexts (Italy), is a researcher (RTDa) in Didactics and Educational Research at the Department of Social, Political, and Cognitive Sciences, University of Siena. His research focuses on career guidance, educational and professional transitions, vocational imagination, and inequalities in access to credible professional futures. He has held visiting positions in Brazil, Portugal, Spain, and the United Kingdom.

FrancoAngeli:

a strong international commitment

Our rich catalogue of publications includes hundreds of English-language monographs, as well as many journals that are published, partially or in whole, in English.

The **FrancoAngeli**, **FrancoAngeli Journals** and **FrancoAngeli Series** websites now offer a completely dual language interface, in Italian and English.

Since 2006, we have been making our content available in digital format, as one of the first partners and contributors to the **Torrossa** platform for the distribution of digital content to Italian and foreign academic institutions. **Torrossa** is a pan-European platform which currently provides access to nearly 400,000 e-books and more than 1,000 e-journals in many languages from academic publishers in Italy and Spain, and, more recently, French, German, Swiss, Belgian, Dutch, and English publishers. It regularly serves more than 3,000 libraries worldwide.

Ensuring international visibility and discoverability for our authors is of crucial importance to us.
