

## About the License Agreement

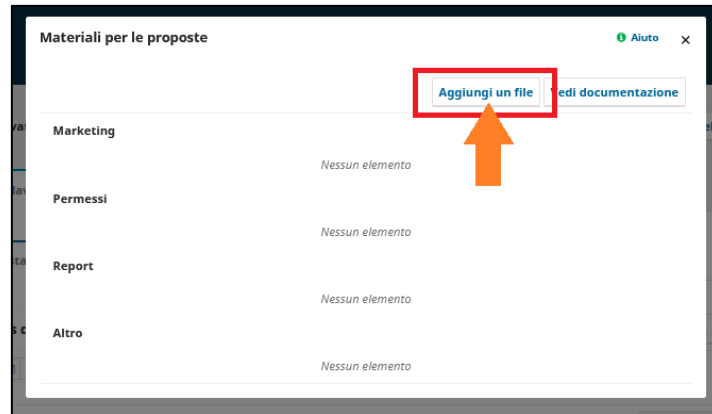

It's mandatory that authors upload the License Agreement for any paper they submitted. A template is available on the Journal homepage, clicking on *Submissions*, then on *License Agreement*.

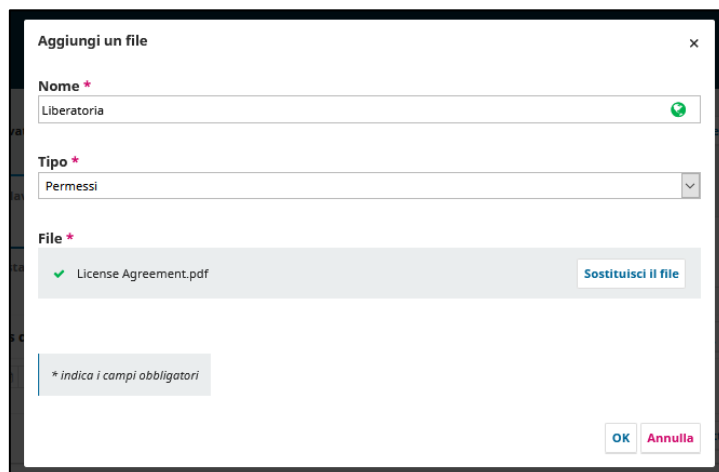

**Papers lacking the licenses could be rejected by the Journal Editor.** The right way to share the license with the editors is uploading it into the *Library*, on top right corner of the submission page, as shown in the following figure.

A pop-up window will be shown. The author has to click on *Add a file*.

Then, the author enters a name for the file and chooses the *Permissions* type. Finally, click on *Ok* to save and quit.

Uploading the License Agreement, the submission process is completed.
